

Our products can change your life!

After 18 months of taking this product, the difference in my energy and pain level has been unbelievable. I had been on pain killers since 2001 with my 1st Rotator Cuff Surgery (I've had 3). Then the joint breakdown in my back became the issue due to the weight I was carrying (I was 329 lbs). Even after weight loss, the pain was just awful so I took pain pills and had RFA's every year in my lower back. I had been on Vicodin and Percocet for almost 15 years when I made the decision I didn't want to go out the last ¼ of my life on pain pills. The journey was amazing and I found the more I moved while taking Arginext and GAIA Turmeric, the better I felt. These two products have changed my life and it could change yours. Check it out at our table today!

Invented by renowned **Cardiologist** Dr Siva Arunasalam Heart Surgeon
and Daniel Austin Cardiologist RN @ The Apple Valley Heart Institute, CA

- Helps blood flow by increasing pathways in the blood vessels
- Softens the blood vessels & eliminates hardening of the arteries
- Relaxes the blood vessels & arteries to help reduce high blood pressure
